ANNOUNCEMENT.

HE publishers of the Buffalo City Directory believe that in the edition now put forth for the year 1889, the general accuracy and completeness which have characterized previous editions have been in no way diminished, knowing that no pains have been spared in thorough canvass or careful compilation, and that scrutinizing supervision of the task has not abated from first to last.

As a product of the bookmaker's art the present volume will be found the equal in typographical finish and beauty to any similar publication in the country.

As a compendium of valuable information the Directory can hardly be excelled. It is so compiled and indexed that any and every portion of its contents may be readily found. It is a complete work of reference and guide to all that pertains to our city.

Some of the features demand especial mention: the Street Directory has been arranged with great care and contains the names, limits, and locations of 127 additional new streets. The introductory pages are replete with information pertaining to the city government, its churches, schools, railroads, public and private institutions, fraternal and beneficiary societies, with much other miscellaneous data. The mortuary list for 1888 is a valuable appendix.

GARGLING OIL LINIMENT | Good for Man and Beast. Use Yellow Wrapper for Animal, and White Wrapper for Human Flesh. Try a Bottle.

The Directory, moreover, is a key to the census of Buffalo. It shows a remarkable growth in population. The Directory of 1888 gave 79,557 names; the Directory for 1889 contains exactly 82,027 names—an increase of 2,470. This is indicative of an increase in population, during the year, of over 8,000 souls, and a present population of 266,588 inhabitants. This is figured on a basis of 3½ persons to the name; computed by a ratio of 3½ (Brooklyn uses 4½), the population of Buffalo would reach 287,095. The publishers feel confident that the present Directory will be found to have kept pace with the growth of the city and to evince the same progress that it chronicles. That it may be appreciated, and that it may become more popular and more necessary than ever before is the earnest wish of its compiler and editor.

BUFFALO

STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting-point of the street, measuring along the line of the street, twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet; whether there be a building or a vacancy or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 439 Main Street, on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, nonsequently the place he seeks is only a few doors above.

BUFFALO LAW SCHOOL

Ellicott street, near Clinton street.

A department of Niagara University, or-ganized June, 1887, is under the auspices of the Judiciary and the Bar of the City of Buffalo. The faculty and lecturers upon special topics are either judges now upon the bench, or lawyers in active practice, who will bring to the discharge of their duties ripe experience, made more valuable by their constant engagements in the decision and trial of the many new questions of law which arise in the practice of their profession.

The course of instruction to be followed will occupy two years' time. Each year will be divided into two terms of seventeen weeks each, beginning the first week in October and closing the last week in May. A post-graduate course will be arranged for those students who have graduated from the law department or wish to pursue special courses in advanced

Instruction will be given by means of lec-tures, recitations, and especially by the study of leading cases, illustrating the legal princi-ples under consideration. Examinations will be held from time to time to test the efficiency of the work performed by instructors and students.

The situation of the School at the City of Buffalo is a peculiarly favorable one. During most of the college year four Courts of General Jurisdiction are in session, in which the

trial of important cases, often by distinguished counsel, are constantly in progress.

Special terms of the Supreme Court and of the Superior Court of Buffalo are held daily, at which judges sit to hear and determine questions touching almost every branch of the law. Terms of the United States Courts are also held in the United States Court rooms; two General terms of the Supreme Court and General terms of the Supreme Court of Buffalo are held yearly.

Students will thus have the opportunity to observe the trial of causes hefers indees and

observe the trial of causes before judges and juries, and to hear the argument of legal questions in appellate courts.
